

ISMD2013

XLIII INTERNATIONAL SYMPOSIUM ON MULTIPARTICLE DYNAMICS

September 15-20, 2013

Illinois Institute of Technology, Chicago, IL

Organized and supported by

Physics Department of the Illinois Institute of Technology (IIT)
High-Energy Physics Division of Argonne National Laboratory (ANL)

Sessions

- Hadronic final states in high-pT QCD Higgs & related topics
- Multiparticle dynamics in soft QCD & correlations
- Proton structure, small & large x physics
- Forward physics & Diffraction
- High pT QCD calculations & particle production
- Phase diagrams of strongly interacting matter
- Multiparticle aspects of high-density systems in heavy ions
- Multiparticle aspects of physics beyond the SM Heavy-ion collisions
- Particle astrophysics
